

Independent decisions, so multiply |options|.

① $2 \cdot 3 \cdot 4 = 24$

② Dependent decisions: cheese-stuffed crust is large only!

Second way: Two cases:

large

$3 \cdot 4 = 12$

$|crust| \cdot |toppings|$

small

$2 \cdot 4 = 8$

$|crust| |toppings|$

$12 + 8 = 20$
